**FOR IMMEDIATE RELEASE**

## **SB TACTICAL™ INTRODUCES THE SB-MAG20 and SB-SAC TO INNOVATIVE LINE OF ACCESSORIES FOR BRACED PDW PISTOLS**

**Saint Petersburg, Fla. (October 24, 2017)** – SB Tactical™, inventors and manufacturers of the Pistol Stabilizing Brace™, has introduced two new accessories to its ever-expanding line of products for the PDW pistol market. The SB-MAG20 and SB-SAC are functional, common sense accessories that ensure quick, onboard access to vital components in sleek, compact units.

Designed by SB Tactical as the ideal transport and storage accessory for AR magazines and braced PDW pistols, the **SB-MAG20** is an innovative magazine pouch that mounts inside most SB Tactical AR braces. Unlike many other AR mag pouches, the SB-MAG20 fits 5.56 aluminum GI, Magpul PMAG, and Lancer L5AWM 20 round magazines without requiring different pouches. The SB-MAG20 comes with a 1" Velcro replacement strap for braces that have a 1 1/2" strap and is available in Black or FDE.

The **SB-SAC** soft pouch was developed in conjunction with Grey Ghost Gear LLC., and is made of Hypalon, an innovative, synthetic rubber, which is used to make Zodiac inflatable boats. Sized to accept a C-A-T tourniquet (or similar sized items), and designed to work with most SB Tactical Pistol Stabilizing Braces, the SB-SAC is the ideal accessory for braced PDW pistols. The SB-SAC can be mounted inside or outside the brace for transport and storage, features quality YKK zippers for fast access to contents, and is water, chemical, UV and corrosion resistant. The SB-SAC is compatible with 1" & 1 1/2" strap SB Tactical braces and is available in Black or FDE.

The SB-MAG20 and SB-SAC are U.S. Veteran-designed, and made in the USA.
