**FOR IMMEDIATE RELEASE**

## **SB TACTICAL™ PARTNERS WITH KAW VALLEY PRECISION ON SBPDW™ PISTOL CALIBER CARBINE BUFFER AND SPRING KITS**

**Saint Petersburg, Fla. (November 2, 2017)** – SB Tactical™, inventors and manufacturers of the Pistol Stabilizing Brace™, has introduced two new accessories to its ever-expanding line of products for the PDW pistol market. Developed in partnership with Kaw Valley Precision, the BUFF75 and BUFF10 buffer and spring kits are proprietary to the SBPDW brace and optimized to provide superior function and increased durability.

AR internal lower parts were not originally designed for use with pistol calibers. SB Tactical has addressed this issue with the introduction of the BUFF75 and BUFF10 buffer and spring kits, which were specifically designed for the SBPDW. Both systems include the PCC extra power spring and precision-weighted buffers that provide increased pre-load and blowback system dwell times, resulting in quieter function, less felt recoil and decreased wear of parts over time.

Designed specifically for 9mm builds, the **BUFF75** kit features a 7.5 oz buffer and PCC extra power spring. The **BUFF10** kit includes a 10oz tungsten buffer and PCC extra power spring to optimize function in 9mm builds where the user intends on shooting heavier (147 gr) loads suppressed, as well as .40S&W, .45ACP and 10MM pistol builds.

### **About SB Tactical™**

SB Tactical™, the originator of the Pistol Stabilizing Brace™ and manufacturers of industry-leading firearms accessories, is setting the bar for innovation and product development in the PDW Pistol category. The SB Tactical line of products is veteran designed, BATFE approved, and manufactured in the U.S.A. For more information on

the brand's growing line of products for multiple firearms platforms, visit [www.sb-tactical.com](http://www.sb-tactical.com).

### **About Kaw Valley Precision**

Kaw Valley Precision made its debut into the accessory world in 2013 with the release of their full-line of Linear Compensators. Building on the popularity of their Linear Comps, Kaw Valley Precision branched out and partnered with companies to design and innovate various solutions for the AR Pistol Caliber Carbine market. Located in Kansas, and proud of their mid-western values, Kaw Valley Precision parts are 100% made in the USA from US produced raw materials. For more information and product offerings visit [www.kawvalleyprecision.com](http://www.kawvalleyprecision.com) and follow on Facebook and Instagram.
